TESTIMONIALS

"The course was great – it was tailored exactly to what our needs were and the tutor could not have been any more helpful."

Craig Ireland, EEG

"The course material was great, the workshops were a good way to learn the subject and the tutor clearly had a lot of experience in the field."

Oliver Smallman, Carbon Credentials

"The course was excellent, one of the best courses I've attended."

Matt Egeland, ContiTech (UK) Ltd

"I really enjoyed the course and found it very useful and informative."

Jacek Koszalka, Oncimmune Ltd

OUR TRAINING AND DELIVERY METHOD

Our experts deliver high quality professional training across a wide range of subjects and industries, providing detailed information and guidance relevant to all stages of your value chain.

MANAGEMENT SYSTEMS AND STANDARDS TRAINING

SGS Academy training gives you a complete understanding of the essential requirements of management systems and standards. Whether you are a lead auditor or executive, interested in a particular ISO standard or management system, we deliver courses that suit all audiences from foundation and awareness training, through to accredited lead auditor courses that meet certification body training criteria requirements. We also provide training on non-accredited management systems processes.

We all approach training in different ways and have to fit in our professional development around our day-to-day responsibilities. With this in mind, our training solutions are offered in a variety of delivery formats so that you can choose those that are best suited to your individual requirements and the needs of your organisation. Our experts deliver face-to-face training in the form of public courses where you can join your industry peers and through in-house courses designed to meet the specific needs of your organisation. If you prefer the flexibility of online training, we also offer SGS Academy e-learning solutions and virtual learning. Further to this, there is the option of choosing a blended learning approach combining face-to-face and e-learning into a practical and rewarding overall training package.

PUBLIC COURSES

Joining our face-to-face public courses gives you the opportunity to meet with colleagues from related industries and discuss course topics with others who have identified the same types of issues. As a result, you can share and gain best practice knowledge, not only from our SGS experts, but also from those in similar organisational roles. Throughout all discussions our experienced and knowledgeable tutors help you to evaluate your insights so you are subsequently able to make considered decisions when approaching strategic changes within your business. Public courses are on fixed dates; please refer to our course calendar for more information.

IN-HOUSE COURSES

Running a standard or customised course at your premises allows you to shape the message and style of the presentation to suit the culture of your organisation. It is the most convenient and cost-effective solution if you wish to train a number of staff in the same location, or when confidentiality is an issue. Once we have agreed the dates and location for your training course, our experts work with you to identify and evaluate your learning objectives and to customise the course content to ensure they are met.

E-LEARNING COURSES

If you are looking for a flexible learning solution that you or those in your organisation can fit around your schedule, our e-learning training offers an ideal option. Delivered quickly and effectively through our learning management system or yours, our global e-learning courses are easily accessible. Anyone taking our courses can simply access the content at any time. Our experts have prepared a portfolio of e-learning courses for your immediate use, or can work with you to prepare e-learning courses tailored to your specific needs. For any courses you or those in your organisation study, progress information can be simply tracked and monitored. Talk to us about how we can integrate your e-learning through our global learning management system.

TRANSFORMING PEOPLE
AND BUSINESSES

NEW COURSES

OHFTC	INTRODUCTION TO ISO 45001:201X DIS	1/2 DAY – PLEASE CALL US FOR A NO-OBLIGATION QUOTE	
	The objective of this seminar is to equip participants with an overview of the purpose and requirements of ISO 45001:201X (DIS) as defined in the Draft International Standard. It will also recognise the main differences between ISO 45001:201X (DIS) and OHSAS 18001:2007 and explain the relationships between the clauses of ISO 45001:201X (DIS).		
IATFT	IATF 16949:2016 INTERNAL AUDITOR TRANSITION COURSE	1 DAY – £350	
	This course is designed for delegates who have a working knowledge of quality systems within the automotive sector. The purpose of this course is to equip participants with an understanding of the new automotive Quality Management system IATF 16949:2016. This programme should be useful as an introduction for anyone involved in the development, implementation, auditing and/or management of an organisation's quality management system to IATF 16949:2016.	11 APRIL 06 JUNE	CREWE NR HEATHROW
		 	
QMSIMP	ISO 9001:2015 QUALITY MANAGEMENT SYSTEMS IMPLEMENTATION TRAINING COURSE	2 DAYS – £695	
	The aim of this course is to provide participants with the competence and a framework to help in developing, implementing and maintaining an effective Quality Management System while meeting the requirements of ISO 9001:2015. This course aims to provide insight into the steps needed for the implementation of ISO 9001:2015 as well as transitioning from ISO 9001:2008 to ISO 9001:2015.	12 APRIL	CREWE
		 	
MDT	ISO 13485:2016 TRANSITION TRAINING COURSE	1 DAY – £495	
	The objective of this course is to provide attendees with the knowledge of ISO 13485:2016, along with the interpretive skills necessary to understand the requirements of ISO 13485:2016.	24 JANUARY 06 APRIL 29 JUNE	NR HEATHROW CREWE BIRMINGHAM
		 	
MDRM	ISO 14971 – RISK MANAGEMENT FOR MEDICAL DEVICES	1 DAY – £495	
	This course provides a comprehensive introduction to the key elements of risk management for medical devices using the harmonised standard, ISO 14971.	27 APRIL	BIRMINGHAM
		 	
MDTF	CONSTRUCTION OF MEDICAL DEVICE TECHNICAL FILE (DIRECTIVE 93/42/EEC)	1 DAY – £495	
	This course provides a thorough introduction for delegates to understand both the regulatory requirements for technical documentation under the Medical Devices Directive (as amended by Directive 2007/47/EC), and provide practical guidance on how to construct the technical file to ensure compliance for their medical device. This course is applicable to own brand labelling (OBL) companies wishing to sell devices under their own name and CE Mark in accordance with new requirements for 'virtual manufacturers'.	09 MARCH 01 JUNE	CAMBERLEY BIRMINGHAM

TRANSITIONING TO 2015 STANDARDS

The publication of the 2015 versions of ISO 9001 and ISO 14001 has revealed notable changes to the standards, which were released in September 2015. These exciting improvements focus on both internal and external stakeholders as well as introducing risk-based thinking to quality management systems, and a more strategic approach to environmental management systems. The SGS Academy is in the perfect position to help you understand and adapt to these changes, optimising your management systems and your business.

SGS ACADEMY TRANSITION SOLUTIONS

For delegates who are not IRCA registered, but assist with the management of their quality or environmental management systems, audit internally or are looking to implement the changes, transition courses are available to provide a detailed overview of the 2015 requirements.

QMST2	ISO 9001:2015 – MODULE 2 – IRCA AUDITOR TRANSITION	1 DAY – £350	
	 IRCA certified course: A17906 This training is designed to equip quality professionals with a detailed understanding of the changes to ISO 9001, as described in the 2015 standard. Learners are expected to have completed an IRCA accredited Annex SL module prior to attending.	08 MARCH	CAMBERLEY
		 	
ANXSL	ANNEX SL – MODULE 1 – IRCA AUDITOR TRANSITION	1 DAY – £350	
	 IRCA certified course: A17902 This highly participative event is designed to equip participants with an understanding of the changes to management system standards arising as a result of the adoption of Annex SL.	07 MARCH	CAMBERLEY
		 	
QMS-REV	ISO 9001:2015 TRANSITION SEMINAR	1/2 DAY – PLEASE CALL US FOR A NO-OBLIGATION QUOTE	
	This seminar is an introduction for anyone involved in the management of a QMS based on ISO 9001. The half-day programme outlines the changes in requirements from the 2008 version of the standard to those of 2015. The transition arrangement to gain certification to ISO 9001:2015 will also be discussed.

TRANSITIONING TO 2015 STANDARDS

QMST	ISO 9001:2015 QUALITY MANAGEMENT SYSTEMS TRANSITION	1 DAY – £350	
	The purpose of this course is to equip participants with an understanding of the differences between ISO 9001:2008 and ISO 9001:2015. This session should be useful as an introduction for anyone involved in the development, implementation and management of an organisation's quality management system.	09 JANUARY 10 JANUARY 27 JANUARY 07 FEBRUARY 23 FEBRUARY 20 MARCH 19 APRIL 27 APRIL 02 MAY 09 MAY 20 JUNE	CAMBERLEY CAMBERLEY BELFAST BIRMINGHAM GLASGOW CREWE CAMBERLEY BELFAST LEEDS BIRMINGHAM CAMBERLEY
			
EMST	ISO 14001:2015 ENVIRONMENTAL MANAGEMENT SYSTEMS TRANSITION	1 DAY – £350	
	The purpose of this course is to equip participants with an understanding of the differences between ISO 14001:2004 and ISO 14001:2015. This session should be useful as an introduction for anyone involved in the development, implementation and management of an organisation's environmental management system.	26 JANUARY 21 MARCH 20 APRIL 26 APRIL 10 MAY	BELFAST CREWE CAMBERLEY BELFAST BIRMINGHAM
			
EMS-REV	ISO 14001:2015 TRANSITION SEMINAR	1/2 DAY – PLEASE CALL US FOR A NO-OBLIGATION QUOTE	
	This half-day seminar introduces you to the key changes in the proposed 2015 revision of ISO 14001 in comparison to the 2004 version. In addition to identifying changes to the standard, and the resulting implications for your current EMS, this seminar will also cover the transition from the old to the new version of ISO 14001.		

If you are unsure of the best route to take, the SGS Academy team would be happy to discuss your requirements for the training in more detail and offer advice on the options available to you. Contact us on the number below to speak with an Advisor.

ASBESTOS MANAGEMENT SERVICES

SGS United Kingdom Ltd is offering training to help employees avoid exposure to asbestos – the UK's number one work-related killer responsible for the death of approximately 20 tradespeople per week – and manage the recovery and clearance processes.

Asbestos awareness training is mandatory for anyone in the UK who might come into contact with it throughout the course of their daily work and the SGS Category A course: 'Asbestos – statutory awareness' gives participants the knowledge of how to work safely without exposing themselves or others to asbestos. It also provides instruction on how to avoid carrying out work that may disturb asbestos fibres.

Our other course (Category B: Asbestos – practical work with asbestos) involves practical training to teach participants how to safely carry out minor-risk asbestos work. It also provides an overview of the requirements of the Control of Asbestos Regulations (CAR) 2012.

ASBAWA	ASBESTOS – STATUTORY AWARENESS	1/2 DAY – PLEASE CALL US FOR A NO-OBLIGATION QUOTE
	The aim of this course is to provide participants with an active awareness of the hazards of asbestos in the workplace and how to manage them. Participants will learn why asbestos was used, where it comes from, where to find it in buildings and what to do about it if they do encounter suspect asbestos materials in the course of their work. This is known as Category A Awareness.	
ASBMAN	ASBESTOS – POLICIES PLANS, MANAGEMENT & REMOVAL	1 DAY – PLEASE CALL US FOR A NO-OBLIGATION QUOTE
	The aim of this course is to provide participants with an overview of the purpose and requirements of the Control of Asbestos Regulations, and the knowledge necessary to draw up policies and plans for managing asbestos in buildings.	

EXPERTISE

BESPOKE TRAINING

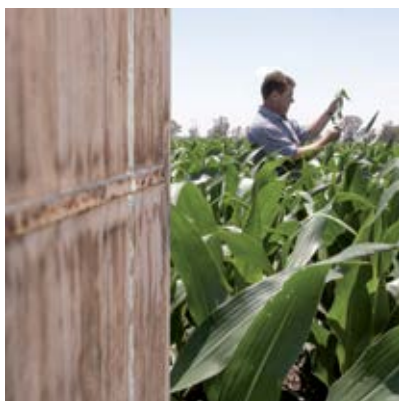

The SGS Academy has the knowledge and expertise to design a custom-made course to fulfil your specific requirements for asbestos training. Contact us today for a no-obligation quote.

INTEGRATED MANAGEMENT SYSTEMS

IMS	INTEGRATE YOUR MANAGEMENT SYSTEMS	2 DAYS – PLEASE CALL US FOR A NO-OBLIGATION QUOTE	
	The purpose of the course is to enable you to integrate an environment and/or occupational health and safety and/or information security management system with your QMS. This course is bespoke to meet your organisation's needs by offering an insight into the requirements of the appropriate standards to enable you to implement and maintain an effective integrated management system.		

IMSIA	INTEGRATED MANAGEMENT SYSTEMS INTERNAL AUDITOR SKILLS COURSE	3 DAYS – £850	
	This course will equip participants with the knowledge and skills needed to audit an integrated management system which could be certified by a third party body. Participants will learn to understand the elements of an integrated management system (IMS) based upon processes. They will be able to plan, prepare for, perform and report on the audit of an IMS to meet the requirements of the constituent standards (ISO 9001:2015, ISO 14001:2015 and OHSAS 18001:2007).	31 JANUARY 25 APRIL	SWINDON CREWE

ENERGY INSTITUTE TRAINING

The SGS Academy in partnership with the Energy Institute is pleased to be able to offer our clients professional training and qualifications in energy management.

WHY TRAIN WITH THE ENERGY INSTITUTE?

Effective energy management is an essential tool in helping to reduce carbon emissions, improve efficiency and save money.

As the professional body for the energy industry and the only body granting the Chartered Energy Manager title, the Energy Institute (EI) is committed to providing professionals with all the resources they need to achieve the highest level of competence in energy management.

Completing EI training and achieving qualifications allows professionals to develop their knowledge and skills and demonstrate their experience to employers, clients and peers, resulting in improved employability, confidence and performance.

Those undertaking EI training benefit from a host of additional professional development resources at their disposal, from networking opportunities and events to free online CPD articles and knowledge resources.

MOVING FROM ESOS TO ISO 50001

SGS United Kingdom Ltd has launched workshops to help ESOS compliant companies understand the benefits of moving from ESOS energy assessments to ISO 50001 certification – the only compliance route providing a framework to continually improve energy performance.

Introduced by the government to improve energy performance and meet EU legislation, ESOS (Energy Saving Opportunity Scheme) specifies that businesses with more than 250 employees, €50 million or more in annual turnover and/or a balance sheet exceeding €43 million must undertake an ESOS energy assessment every four years.

ENMOV	MOVING FROM ESOS TO ISO 50001	1/2 DAY – PLEASE CALL US FOR A NO-OBLIGATION QUOTE
	Participants who complete this training will understand how to integrate energy consumption and energy efficiencies gleaned from ESOS audits into an ISO 50001 energy management system, ensuring energy saving opportunities are continually planned, implemented and checked to drive efficiencies through continual improvement.

BUSINESS CONTINUITY INSTITUTE (BCI)

BCIFTC	<p>AN INTRODUCTION TO BUSINESS CONTINUITY</p> <p>This course is a basic introduction to the world of business continuity (BC). It is designed as a first step for newcomers to the subject of BC, and for those for whom BC may be a part of their role or responsibilities. It provides the basic knowledge and understanding of the building blocks required for developing or maintaining a robust Business Continuity Management Programme, and gives those individuals with a BC related role a comprehensive overview of the discipline. This course covers all six elements of the BCM Lifecycle and is based on global good practice as described in the Business Continuity Institute's Good Practice Guidelines and the international standard for Business Continuity, ISO 22301.</p> <p><i>Please note: this course is not a preparation for the Certificate of the BCI Examination.</i></p>	<p>2 DAYS – PLEASE CALL US FOR A NO-OBLIGATION QUOTE</p> 
BCIIA	<p>BUSINESS IMPACT ANALYSIS (BIA) COURSE</p> <p>This course is for business continuity professionals who are required to undertake a Business Impact Analysis in their organisation and are looking to enhance their skills and technique for this essential component of an organisation's Business Continuity Programme. The course takes the individual through the steps required to develop a complete understanding of the BIA process, including the critical steps required to achieve a thorough understanding of the nature and operational requirements of an organisation. Using practical case studies based on real-life scenarios, individuals will gain practical insights into how to conduct a BIA within the context of a BCM Programme.</p>	<p>2 DAYS – PLEASE CALL US FOR A NO-OBLIGATION QUOTE</p> 
BCIEP	<p>EXERCISE PLANNING COURSE</p> <p>This course is designed for business continuity professionals who have been tasked with developing, managing and maintaining an exercise programme within their organisation. The success of any Business Continuity Management Programme depends entirely on organisational capability to respond effectively when an incident occurs. Exercising ensures the Business Continuity Plan(s) remain up to date and relevant, and ensures that the people involved in the response and recovery process know and understand what is expected of them. This course equips the business continuity professional with the tools, skills and knowledge required to develop, manage and maintain a programme of exercises that can be used to validate the effectiveness of the Business Continuity Plan.</p>	<p>2 DAYS – PLEASE CALL US FOR A NO-OBLIGATION QUOTE</p>

BUSINESS CONTINUITY INSTITUTE (BCI)

BCIC&I	CRISIS AND INCIDENT MANAGEMENT COURSE	2 DAYS – PLEASE CALL US FOR A NO-OBLIGATION QUOTE
	<p>This course is aimed at senior managers who are responsible for managing an incident both at a strategic and tactical level, or for individuals who are part of the Incident Management Team. The course is also suitable for those responsible for exercising or coaching the Incident Management Team. The course provides theoretical guidance and practical experience on how to deal with a wide range of incidents that may be faced by an organisation. It looks at different exercising and coaching approaches and techniques that can be used by senior managers involved in the incident response.</p>	
BCISCC	SUPPLY CHAIN CONTINUITY MANAGEMENT COURSE	1 DAY – PLEASE CALL US FOR A NO-OBLIGATION QUOTE
	<p>The course is designed for business continuity professionals who are looking specifically to further develop their skills in supply chain business continuity. This course will also benefit those professionals who are responsible for purchasing, supply chain management, contract management and procurement. This course aims to give individuals an understanding of supply chain risks, including the identification of risks in the supply chain as well as how to identify key suppliers. It offers up different strategies and approaches to mitigate risks in the supply chain, including the integration of business continuity into supply chain risk management in order to achieve supply chain resilience.</p>	
BCIW	WRITING BUSINESS CONTINUITY PLANS COURSE	1 DAY – PLEASE CALL US FOR A NO-OBLIGATION QUOTE
	<p>This course is aimed at those business continuity professionals who are tasked with writing business continuity plans for their organisation. This course gives practical guidance on how to develop and write a set of strategic, tactical and operational business continuity plans as part of the Incident Response Structure, which forms a key part of the BCM lifecycle. This course uses a combination of presentations, discussion and scenario-based exercises and activities to demonstrate how an exercise-led plan development process can be facilitated.</p>	
CBCI	GOOD PRACTICE GUIDELINES TRAINING (CBCI) COURSE	3-5 DAYS – PLEASE CALL US FOR A NO-OBLIGATION QUOTE
	<p>The CBCI Certification Training Course is based on the Good Practice Guidelines (GPG), the independent body of knowledge for good business continuity (BC) practice and is aligned to ISO 22301, the global standard for BCM. The course offers a solid description of the methods, techniques and approaches used by business continuity professionals worldwide to develop, implement and maintain an effective BCM programme. This training course is intended to meet the technical and professional needs of BC and resilience professionals working in organisations of any type and size, in any industry or sector worldwide.</p>

SGS

WHY SGS?

As the leader in professional training, we draw on our years of worldwide experience to provide effective blended learning and development solutions. Work with a global leader and take your commitment to training to the next level with the SGS Academy.

SGS is the world's leading inspection, verification, testing and certification company. SGS is recognised as the global benchmark for quality and integrity. With more than 90,000 employees, SGS operates a network of over 2,000 offices and laboratories around the world.

Enhancing processes, systems and skills is fundamental to your ongoing success and sustained growth. We enable you to continuously improve, transforming your services and value chain by increasing performance, managing risks, better meeting stakeholder requirements and managing sustainability.

With a global presence, we have a history of successfully executing large-scale, complex international projects. Our people speak the language, understand the culture of the local market and operate globally in a consistent, reliable and effective manner.

If you haven't quite found what you are looking for, please contact our training team as we offer many bespoke options, tailored to your needs.
