

# 2020 Hardlines Training Seminars

## EN71 AND CHEMICAL TESTING FOR TOYS

The safety of toys within Europe is governed by the Toy Safety Directive, which lays down the legal requirements covering the safety of toys, their labelling and the obligations on manufacturers, importers and retailers. This training provides an overview of current European and international Toy Safety legislation and an understanding of legal obligations as well as the chemical requirements within the European Directives and the obligations of everyone within the supply chain.

In addition, it will look at when to test your product, the types of tests that the labs carry out and how to read test reports. Learn how to apply the CE mark and use the correct warnings.

## INTERNATIONAL TOY STANDARDS AND REGULATIONS

Aligning global toy regulations has always been a goal but today there are still significant differences between standards across the world. This can create problems for manufacturers and importers when looking to expand their scope of global markets. This seminar will focus on 2 main markets – US, Canada and Australia and New Zealand and it will look at the standards in each of these markets and provide an overview of each as well as discussing how these differ to the UK and EU requirements. In addition, details of some of the other key developing markets around the world will be discussed.

### OVERVIEW OF TOPICS COVERED:

- US Requirements –
  - US Consumer Product Safety Improvement Act
  - ASTM F963
- Canadian Toy Regulations
- Australia/New Zealand - AS/NZ/ISO 8124
