

The number of components per vehicle has doubled over the last decade.

HOW CAN YOU ENSURE THE SAFETY OF YOUR AUTOMOBILE?

ENHANCE YOUR QUALITY OF MANAGEMENT SYSTEM WITH IATF 16949

BE THE BENCHMARK

SGS

SGS AUTOMOTIVE CERTIFICATION SERVICES

IF YOU ARE CURRENTLY TS CERTIFIED THROUGH SGS, LET US HELP YOU GET CERTIFIED TO IATF 16949

The new IATF quality management system standard adopts the high level structure specified in ISO Annex SL that is now the required framework for all new and revised management system standards. In addition to the changes outlined below, you will see new requirements for safety-related parts and processes as well as for products with embedded software.

WORKING WITH ALMOST EVERY PART OF THE TRANSPORTATION SUPPLY CHAIN, OUR EXPERTS HAVE EXTENSIVE INDUSTRY KNOWLEDGE OF WHAT IS INVOLVED IN GETTING A PRODUCT TO MARKET QUICKLY, EFFICIENTLY AND MOST IMPORTANTLY, SAFELY.

We are constantly looking beyond customers' expectations in order to deliver market leading services wherever they are needed. We have a history of taking on and successfully executing anything from large-scale, complex international projects to smaller turnkey projects. With a presence in every region around the globe, our people speak the language and understand the culture of the local market. We operate globally in a consistent, reliable and effective manner you can trust.

While our global reach is important, our local presence allows us to be hands on in our approach, providing flexibility and tailored solutions that meet your specific needs.

WHAT'S NEW WITHIN THE IATF STANDARD?

Increases leadership focus and involvement by highlighting risk, quality and continuous improvement throughout the organization

Enhanced product traceability to support the latest regulatory changes

Warranty management process that addresses no trouble found (NTF) and the use of automotive industry guidance

Incorporation of some Original Equipment Manufacturers (OEM) Customer Specific Requirements (CSRs)

Clarification of sub-tier supplier management and development requirements

Addition of corporate responsibility requirements

Further supports an integrated management system approach

HELPING YOU GET THERE

As the world's leading inspection, verification, testing and certification company, we can help you throughout the transition or give you the tools you need to navigate the transition process independently. SGS offers training on several areas of the new IATF standard and transition process as well as audit services.

Public Training

Web-based e-Learning

Management System Training

Root Cause Analysis (RCA) Training

Lead Auditor Training

Core Tools Training

Transition Audits

Transfer Audits
